

### Markov chain info

=====

8 states of which 5 ergodic and 3 transient

2 ergodic classes

1 transient strongly connected components

2 weakly connected components

Sizes of the ergodic classes are [2, 3]

Sizes of the transient strongly connected components are [3]

Sizes of the weakly connected components are [5, 3]

The Kemeny constant is 1275.464

The top 5 of Google's PageRank is [6 1 3 0 4]
