Markov chain info
==================
8 states of which 5 ergodic and 3 transient
2 ergodic classes
1 transient strongly connected components
2 weakly connected components
Sizes of the ergodic classes are [2, 3]
Sizes of the transient strongly connected components are [3]
Sizes of the weakly connected components are [5, 3]
The Kemeny constant is 1275.464
The top 5 of Google's PageRank is [6 1 3 0 4]
